

SUBHI BALAJI

A highly dedicated, analytical, and meticulous person with an eternal zeal to learn and grow. To work in an innovative, healthy, and challenging environment extracting the best out of me which is conducive to learn and grow at professional as well as personal levels. My focus lies in project management and translating creative mobile app, web, or game design ideas into reality using front-end technology and data analysis.

Education

Bachelor of Science: Computer Science & Engineering

University of California, Merced – Merced, CA

Experience

Front-End Developer & Project Coordinator, Western Digital (Aug 2021-Dec 2021)

- Used MERN stack to create the WebApp.
- Created and managed several database tables using MongoDB.
- The WebApp was created for lab managers at Western Digital and is used to monitor computer info from WD's computers within their labs.

Undergraduate Research, UC Merced (Aug 2021-Dec 2021)

- Used C++ to work on coding projects assigned by professors.
- Learned a lot about Network Security, Problem Solving, and Algorithms.

Digital Artist, Twitch (Jan 2019-Present Day)

- Drawing twitch emotes, sub badges, panels, and offline screens.
- Designing logos for small businesses and for people's personal use.

Vice President, Society of Women Engineers (SWE) (Aug 2018-Aug 2019)

- In charge of coordinating events & meetings and inspired the local youth to be a part of the STEM field.

Data Analyst, Merit Partners Program (Aug 2017-Dec 2017)

- Transcribed conversations held with the incarcerated youth of Stockton, CA.
- Used Dedoose, a web application that allows you to organize and monitor research data despite the form the data takes, to analyze the conversations.

Front-End Developer & Product Designer, Hackathons (Jan 2015-Jan 2018)

- Created app prototypes to solve problems faced by people worldwide.
- Competed at Make School (San Francisco), Heroku (San Francisco), Galvanize (San Francisco), 42 (Fremont), and Merced Hacks (UC Merced).
